

Gelli Plate Printing

\$35.00 includes all your supplies

I LOVE printing with my Gelli plates. (I have 5 different sizes for you to try) It is so much fun to use and you never make a mistake or do it wrong.

I use the printed paper as pages for my art journals, as bases for greeting cards, and in my collage art. Use your imagination and where ever you use paper you can use Gelli printed paper.

It's fun, easy, addicting and fun, did I mention fun?

The three hours for this class will disappear before you know it. You can use my paints, stamps, stencils and other mark making tools. You will leave with a big pile of printed papers and a good idea how to make many different designs.

This class is suitable for all ages and abilities.
