

## Art Journaling

**\$80.00 All materials are included**

While journaling is a great way to document your days, your journals can really become a work of art when you add drawings to the pages.

In this class you will learn basic bookbinding, sketching, and painting. All the supplies you will need are included in this class. While some drawing ability will be an asset, it is not necessary.

We will start by making our own watercolor paper art journal and then we will start to fill the pages with doodles and sketches. Finally, you can use my watercolor paints, markers, and colour pencils to make your journal truly special.

This class is 6 hours long. It can be a day-long class with a break for lunch or split over 2 or 3 evenings.
